

PANASONIC Solid State Relays

Panasonic

This product is RoHS compliant.

DIMENSIONS: mm (in.)

Panasonic Solid State Relays can handle load currents from 0.5A up to 40A, and were developed specifically for industrial equipment control. Compact Phototriac Coupler and Triac Output with high on-state RMS current up to 1.2A. Versatile PC board mount AQ1 with AC and DC outputs and optional heat sink Economical AQN handles up to 40A load current

AQ2 SERIES - SOLID STATE RELAYS

Features:

- 10A high-capacity realized for PC board terminal (with heat sink): SSR for compact PC boards with 10A capacity that is two times greater than our previous model. It is suitable for longlife, highly frequent control
- VDE (EN60950-1) reinforced insulation compliant: Fully satisfies demand for safety by guaranteeing compliance with EN60950-1 safety standard and featuring 3,000V reinforced insulation (AQ2A2-ZT4/32VDC, AQ2A2-J-ZT4/32VDC and AQ10A2-ZT4/32VDC)
- Superior anti-vibration and antishock characteristics: The body is molded as a single unit with flame resistant resin which makes it highly resistant against vibration and shock, and gives it superior protection from environment. The body can also be washed
- Reduced noise generation: The load will operate at close to zero voltage even when the input signal is applied during a cycle. Also, even if an input signal is cancelled during a cycle, the load is cut off at close to zero current. For this reason, hardly any noise is produced and radio frequency interference (RFI) and electromagnetic interference (EMI) are kept to a minimum
- Built-in Snubber circuit prevents malfunction

Typical Application:

- Printing machines
- Packing machines
- Traffic signal control
- Automatic ticket punchers
- Terminal equipment of data processing
- Computer peripherals
- NC machines

RoHS Compliant

769-AQ2A2-C1-ZT24VDC	AQ2A2-C1-ZT24VDC	A1	2	24	750-250				
769-AQ2A2-C1-ZT5VDC	AQ2A2-C1-ZT5VDC	A1	2	5	750-250				

AQN SERIES - SOLID STATE RELAYS

Features:

- Compact DIP type SSR that's ideal for AC load control for AC load control
- Supports 0.3A, 0.6A, 0.9A and 1.2A ON-state RMS currents
- Handles both 100 and 200VAC loads
- The 1.2 A type saves space with a DIP 8-pin package
- High dielectric strength: 5,000VAC (between input and output)

Typical Application:

- Home appliances
- Industrial equipment market

AQS SERIES

Features:

- Built-in input resistor means less man-hours mounting
- Wide variety small package
- Saves space on Board
